**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8, 3, 4, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Crandall. The patent to Crandall discloses the recited pipe member comprising a metal pipe 10 made of aluminum of a small diameter and longer than a second tubular portion 14 considered equivalent to a pipe section made of steel being of a larger diameter to fit over the smaller diameter pipe and of a shorter length, the two together form a pipe section, and the inner pipe is enlarged to provide at least a portion of only the multiple pipe structure to expand integrally.

### ***Allowable Subject Matter***

Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed February 4, 2004 have been fully considered but they are not persuasive. Crandall expands the inner tube into an integral connection with the outer second portion to make up the multiple pipe section, and by enlarging the inner

diameter of the inner tube into contact with the outer second portion meets the claim language set forth above, where expanding at least the inner tube is expanding at least a portion only of the multiple pipe structure, specifically at the point where the inner and outer portions are connected together, and since the inner tube is part of the multiple pipe structure then a portion of the multiple pipe structure is being expanded as required when the inner tube is expanded.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
